Philosophy 123 Philosophy of Logic Spring 12 Prof. G. Sher

Office: HSS, 8042 Office Hours: T 3:45-4:45 and by appointment e-mail: <u>gsher@ucsd.edu</u> Tel.: 534-8504

# **Topic: Foundations of Modern Logic: Historical & Contemporary Perspectives**

Prerequisite: Phil 120 or the instructor's permission

Course Requirements: Midterm (30%), Paper (30%), Final (40%)

Syllabus

T 4/3	Introduction to Course
TH 4/5	Historical Foundations of Logic I: Frege
T 4/10	Cont.
TH 4/12	Historical Foundations of Logic II: Russell.
T 4/17	Cont.
TH 4/19	Historical Foundations of Logic III: Axiomatic Set Theory
T 4/24	Cont.
TH 4/26	Historical Foundations of Logic IV: Tarski
T 5/1	Cont.
TH 5/3	Contemporary Foundations of Logic: Model Theory
T 5/8	Cont.
TH 5/10	MIDTERM
T 5/15	Contemporary Foundations of Logic: Etchemendy's Challenge
TH 5/17	Cont.
T 5/22	Contemporary Foundations of Logic: Sher's Response
TH 5/24	Cont.
T 5/29	A New (Holistic) Foundation for Logic: Sher
*TH 5/31	Gödel's Completeness and Incompleteness Theorems
*T 6/5	Cont.
TH 6/7	Course Conclusion.

<u>Readings</u>. (Most items are available on Electronic Reserves or on SSH Reserves. Other items are available at the UCSD Library Reserves.)

### Frege

- 1. Begriffsschrift: a Formula Language, Modeled upon that of Arithmetic, for Pure Thought
- 2. "Function & Concept".
- 3. "Introduction", The Basic Laws of Arithmetic.
- 4. Selection from Posthumous Writings.

## Russell

- 1. "The Philosophy of Logical Atomism".
- 2. "Logic as the Essence of Philosophy", Our Knowledge of the External World.
- 3. "Introduction to the Second Edition", Principles of Mathematics.
- 4. "Introduction to the Second Edition", Principia Mathematica (Whitehead & Russell)
- 3. "Descriptions"; "Mathematics & Logic". Introduction to Mathematical Philosophy.

## Tarski

1. "The Concept of Truth in Formalized Languages", §1-3 (Excerpts from *Logic, Semantics, Metamathematics*).

2. "The Establishment of Scientific Semantics". (Excerpts ...)

- 3. "On the Concept of Logical Consequence". (Excerpts ...)
- 4. "What Are Logical Notions?".

## Model Theory

1. Handout.

## Etchemendy

- 1. The Concept of Logical Consequence (Excerpts / Book)
- 2. "The Doctrine of Logic as Form".

## Sher

- 1. *The Bounds of Logic* (Excerpts / Book)
- 2. "Did Tarski Commit 'Tarski's Fallacy'?"
- 3. "Is Logic a Theory of the Obvious?"
- 4. "Is Logic in the Mind or in the World?"
